Summery

I am currently in my senior year studying Msc computer science at Bhonsala Military College under SPPU, Pune. I have worked with MERN Stack and have created multiple personal projects using the same Tech stack. Moreover, I'm also familiar with Data Structures and Algorithms. I have solved over 150 problems on multiple platforms. I'm looking for Internship / Full-Time opportunities as a Software Developer.

Projects

Hifi – A Social Media Application   Link

- Built a social media web app using MERN stack with React for the front end and Node.js (Express) for the back end.
- Implemented user authentication with bcrypt and JWT, utilizing MongoDB Atlas as the database and Cloudinary for image storage.
- Included features like post liking, friend requests, profile editing, user following/unfollowing, and real-time chat using Socket.io.

Blogium – A Social Bloging Platform   Link

- Developed a MERN stack-based social blogging platform, using React for the frontend, Node.js with Express for the backend, MongoDB Atlas for data storage, and Cloudinary for image management.
- Implemented robust user authentication with bcrypt and JWT, allowing users to create, edit, and share posts, interact through comments and likes, and enhance their blogs with images.
- Demonstrated strong full-stack development skills, emphasizing user experience, security, and efficient data handling within a modern web application.

Youtube Clone   Link

- Created a YouTube clone application using React and state management with Redux, offering a familiar user experience.
- Utilized the YouTube API to access a vast library of videos and provide real-time search functionality.
- Implemented a user-friendly interface that enables users to search for videos and seamlessly watch them.
